The activities of PTF e.V. are structured according to the **IOOI-method** (input-output-outcome-impact) but in order to explain our intended impact - which entails our vision and mission - first, we moved it before the input description.
Why we joined PTF e.V.

Juanita Olaya, PTF e.V. Advisor: „PTF e.V. has a remarkable membership. They are people who know how to get things done. I value our impact and enjoy working in such an efficient and result-oriented environment. That’s why I joined.”

Dr. Alexander Fink, PTF e.V. Advisor: „Over the last 15 years I have been working in developing countries. From my point of view corruption is the main problem that affects especially poor people. As a doctor I care about health care access for these poor people. Grass root level projects as intended by PTF e.V. are vital to improve health care services for them. That’s why I joined.”
I am pleased to present the first annual report of PTF e.V. which provides an overview of our first year’s activities. The report meets the Social Reporting Standard hereby reflecting our understanding of a transparent and innovative organization.

PTF e.V. is the European affiliate of Partnership for Transparency Fund (PTF), the Washington DC based headquarter organization. We both share the same mission in “advancing innovative citizen-led approaches to improve governance, increase transparency, promote the rule of law and reduce corruption in developing and emerging countries”.

Being located in Europe, PTF e.V. mainly focuses on the Western Balkans and the Eastern European Neighborhood countries.

In 2014, the first year of PTF e.V.’s existence, we have increased our membership – now including former senior World Bank advisors, CSO representatives, Scandinavian Diplomats and young professionals which focus their career on governance and anti-corruption projects.

These initial efforts which started with a dry, bureaucratic registration process have quickly evolved into a lively and dynamic process of various result-oriented activities among the PTF e.V. members as well as a continuous and inspiring exchange with our PTF colleagues in Washington.

I hope you will enjoy reading of the annual report!

Franz Kaps
Head of PTF e.V.
Despite it’s relatively short existence, PTF e.V. has made impressive progress in 2014. PTF is pleased to continue providing PTF e.V. with all necessary administrative, technical and strategic support to ensure its continued success. At the same time, we are benefiting from the many contributions and insights our committed and energetic European members.

A mutually productive PTF e.V./PTF partnership has emerged which has more than vindicated our decision to support the establishment of a Europe-based affiliate in mid-2013.

We are particularly encouraged by PTF e.V.’s efforts to seek new partnerships in Eastern Europe and the Western Balkans.

In this context, we expect to roll out the Berry Metzger Rule of Law Initiative, currently being piloted in Serbia, to other countries in the region. Similarly, the proposed Moldova Integrity Program could serve as a model for similar programs in other countries. The same holds true for PTF’s Citizen Action for Results, Transparency and Accountability (CARTA) program, which has been successfully tested in Asia.

PTF wishes PTF e.V. continued success in 2015 and looks forward to support it in every way possible.

President and CEO of PTF
Why we joined PTF e.V.

Michael Wiehen, PTF e.V. Advisor: „I have been part of the global anti-corruption movement from early on. Due to its impressive capacities to support the implementation of governance and anti-corruption projects, PTF e.V. complements this movement in Europe. That’s why I joined.“

Lars Jeurling, Advisor | Author of the Ukraine Concept Note: „Ukraine has been a difficult country to work on but I feel that a consensus is forming that, with the emergence of a vibrant civil society and reform minded government, there is now a window of opportunity to engage Ukrainian civil society in the fight against corruption. To seize this opportunity, I joined PTF e.V.“
PTF decided to support the establishment of a sister organisation in Europe (PTF e.V.) in order to attract new members, engage in European anti-corruption networks, develop new partnerships and attract grants and other modes of cooperation from European organisations.

The Partnership for Transparency Fund eingetragener Verein (PTF e.V.) was set up in 2013 and registered as a not-for-profit association under German corporate law in January 2014.

As a fairly new CSO, PTF e.V. relies upon the support of its “mother organisation”, the Partnership for Transparency Fund (PTF) in Washington DC. This organisation was founded in 2000 and has a pool of more than 70 experienced advisors.

PTF e.V. – as also PTF – understands itself as a pioneering and innovative organization mobilising expertise and resources to provide advice and small grants to civil society organizations (CSOs) to improve governance, increase transparency and reduce corruption in developing countries as well as emerging countries.
Our Mother Organisation PTF

Partnership for Transparency Fund – a tested approach over 14 years

In the last 14 years, the Partnership for Transparency Fund has provided about 5.5 million USD through 250 small grants to projects developed and implemented by more than 160 partner CSOs.

Skilled PTF advisors assist in the implementation of the projects all over the world. A number of these grants have been to former Soviet Union countries and to countries in Eastern Europe.

In 2014, PTF ran four big initiatives:
1. Barry Metzger Rule of Law Initiative in the Balkans,
2. Citizen Action Platform in Africa,
3. Citizen Action for Results, the Transparency and Accountability (CARTA), and
4. Increased relief accountability in cyclone affected areas in Asia.
Our Impact

Our Vision | PTF e.V. envisions societies where citizens succeed in making their government free of corruption.

Our Mission | PTF e.V. aims at advancing innovative citizen-led approaches to improve governance, increase transparency, promote the rule of law and reduce corruption in developing countries.

Our Approach | Our approach to realizing this vision and mission focuses on incubating innovative good governance initiatives of civil society organisations. We validate selected ideas, scale-up successful approaches for wide-spread replication, and disseminate results and lessons learned from our experience to advance the global movement against corruption.

In addition to general program oversight, we support civil society organisations through small grants and technical assistance in the design, implementation and monitoring of project.
Our Input
What resources we put into our activities

Financial input | In 2014, PTF e.V. received financial assistance from its mother organization based in Washington, DC. This seed money in the amount of 9653.52 Euro (of which only 3969.20 Euro was spent) allowed PTF e.V. to “get into business”.

Human resources input |
• Strategical Input | PTF e.V. members advising in which direction PTF e.V. could go (e.g. drafting a strategic plan for PTF e.V. and writing Moldova and Ukraine concept papers);
• Professional Input |
  ✓ PTF e.V. members advised on which direction PTF e.V. could go (e.g. drafting a strategic plan for PTF e.V. and writing Moldova and Ukraine concept papers);
  ✓ PTF e.V. members provided professional input on operational issues (e.g. organizational development, screening for funding opportunities, drafting of proposals) and thematic matters (by contribution to the PTF working groups);
• Technical Input | PTF designed and maintained the PTF e.V. sub-website www.ptfund.org and the PTF communication plan.
Background

Ukraine is going through a difficult period and it is unclear when the situation in the country will allow international organizations to cooperate with local CSOs to address governance and transparency challenges. A resolution of the armed conflict in the East is critical.

Many competent civil society organizations (CSOs) have emerged in the past year. They have received the President’s pledge and other signs of changing attitudes throughout society with enthusiasm and feel that the Ukraine now has a unique chance to break with the past. They acknowledge, however, that without nudging from an active civil society and support from the international community progress could falter.

PTF and potential partner CSOs thus believe that conditions could improve in the near future and if so Ukraine will become an urgent and promising ground for PTF assistance.

Approach

The Ukraine program will be co-managed by a General Partner and the European branch of PTF operating out of Munich, Germany but will also draw on PTF’s pool of advisors based in the US and other parts of the World. The program will be managed in close cooperation with Transparency International.

PTF will select a Ukrainian non-government organization (the General Partner which could be TI-Ukraine) to co-manage the program channel funds and help select and supervise CSOs and projects to be included in the program.

These projects will address specific governance/transparency problems, particularly at local level, which have arrested Ukraine’s social and economic development by interfering with the political and democratic processes and the efficient functioning of the government and the market economy/private business.
First Concept Papers I

How we reach out for funds

Moldova concept paper, Marie-Carin von Gumppenberg

Background

Despite multiple efforts, undertaken by the Moldovan government and supported by development partners, Moldova ranks 102 of 177 countries in the Transparency International’s Corruption Perceptions Index 2013.

The European Union which supports Moldova in the context of its Eastern Partnership Program and more recently under the Association Agreement repeatedly invited Moldova to “intensify the fight against corruption at all levels”, specifically proposing steps to be taken in the following areas: ensuring the full functioning and independence of the National Anti-corruption Centre, creating an enabling legislative framework for the National Integrity Commission, preventing undue business interest influence on all sectors, including the judiciary, and ensuring the transparency of public procurement and privatisation.

Approach

PTF e.V., the European branch of PTF e.V., will take a lead role in the Integrity Programme Moldova. In the course of a Needs Assessment that it intends to conduct PTF will look for a General Partner on the ground with whom it intends to develop and implement the Integrity Programme.

For the Programme design, its implementation and monitoring, PTF e.V. will draw on PTF’s pool of advisors based in Europe, the US and other parts of the World. PTF advisors have specialized skills (e.g. public procurement, judiciary reform), and many of them also in-country experience.

PTF e.V. will also seek to link up with Transparency International, hereby drawing upon a Memorandum of Understanding that was concluded 2014 between PTF, PTF e.V. and Transparency International-Secretariat outlining the areas of collaboration (technical assistance for projects, project evaluations, policy advice and the joint preparation of grant proposals to development partners). PTF e.V. intends to invite TI Moldova to apply as a General Partner in the Integrity Programme; but other options should also be explored.
First Successful Tender

„Partners in Empowerment”

EU-funded project won by PASOS with PTF e.V. as a partner

PASOS

PASOS is a regional platform, open to co-operation and partnership to address key regional and international policy challenges. Since its launch in 2005, PASOS has grown from 23 members and now comprises 56 independent policy centres spanning more than 27 countries. PASOS acts as an interface between EU-based policymaking communities and the countries of Southeast Europe, Turkey, the EU’s Eastern neighbourhood and Central Asia. PASOS actively supports efforts to promote freer societies governed by the rule of law.

“Partners in Empowerment”

From 2015-2017, PASOS is leading, with PTF e.V. as a partner, a new EU-funded project, entitled, "Partners in Empowerment", a sub-granting (grants totalling EUR 600,000) and capacity-building project focusing on Armenia, Azerbaijan, Belarus, Moldova, and Ukraine. The objective of the project is to support the development of stronger, interconnected CSOs and CSO leaders in the five countries, better equipped to work together and to draw on peer and international expertise to hold governments to account by becoming effective watchdogs engaged in policymaking processes and in leveraging expertise to monitor public service delivery and government decisions.

The first step of the project, to be launched in early 2015, will be the design of an "organisational capacity assessment (OCA) of local watchdog organisations and national CSOs monitoring policy implementation and budget transparency, including use of EU funding. OCAs will be supplemented by strategic institutional development mentoring, focusing on project evaluation, leadership development, sustainable strategic and financial development. This will result in clear organisational strategies for the CSOs concerned, and in high quality project proposals for the sub-granting programme“.

Our Outcomes

The changes and benefits that result from PTF e.V.’s activities

Increased visibility | PTF e.V. – in close cooperation with PTF, TI-S and TI national chapter and other like-minded partners – has started to establish its own reputation as credible CSO engaged in anti-corruption, good governance and rule of law programs in the wider EU region.

The PTF e.V. chairperson and advisors travelled to several conferences and meetings, among others to Brussels (meetings with various representatives of EU agencies), Warsaw (PASOS annual meeting), Bonn (BMZ anti-corruption strategy presentation), and Eschborn (GIZ) to present PTF e.V. as a newly established European anti-corruption CSO.

Integrated in an outstanding anticorruption network | PTF e.V. and PTF have been increasingly presented as being part of the “one family” which is guided by the PTF/PTF e.V. mission statement and the Memorandum of Understanding among them, a document paying credit to numerous past co-operations and emphasizing the will to proactively seeking further opportunities for future cooperation. PTF e.V./PTF and TI-S concluded also a Memorandum of Understanding; all sides consider themselves as complementary actors in the anti-corruption field.

Our Plan for 2015

Membership qualified and increased | PTF e.V. aims to maintain a stable core team while recruiting new members with skills relevant to our agenda.

Networks deepened | PTF e.V. will continue to build up an anti-corruption network and contribute to other such networks.

Subcontracts and grants won | PTF e.V., with the support of PTF, will work to win subcontracts and grants from the EU and other European donors, and actively participate in anti-corruption projects.

CSOs supported | PTF e.V. will focus on building up the capacities and competences of partner CSOs.

Why we joined PTF e.V.

Christoph Kowalewski, PTF e.V. Treasurer and Advisor: „What impresses me the most about PTF’s approach is how effective money is being spent. This is rare to find among non-profit organisations. That’s why I joined PTF e.V.“

Marie-Carin von Gumppenberg, PTF e.V. Advisor | Author of the Moldova Concept Note: „Having lived and worked in Central Asia, the Caucasus and the Balkans for more than ten years I know the challenges of the project work in countries PTF e.V. intends to focus on. **Expenditures** | The below breakdown clearly shows that PTF e.V. invested in travel and networking – besides the administration – with the aim of „getting into business“. For the year 2015, this ratio is expected to change with most of the money spent for project activities.

**Finances 2015** | The balance at the end of 2014 will be transferred to the 2015, mainly to cover travel costs, the research assistant and initial project costs.
Our Partnerships
